GLOBAL WATER ALLIANCE

**Institutional Membership 2026**
**Global Water Alliance**

Institutional memberships in the Global Water Alliance (GWA) are tailored to academic organizations and non-governmental organizations (NGOs) that play an active role in promoting or pursuing the UN Sustainable Development Goals (SDGs) as pertaining to Water, Sanitation and Hygiene (WaSH).

Membership in GWA at the institutional level provides opportunities for collaboration and mutual benefits. For academic members, GWA may provide:

a. Technical input for WaSH course development, reflecting the field's multidisciplinary nature.
b. External mentoring/advising for capstone projects and student organizations pursuing WaSH initiatives.
c. Guidance on research program development, including global WaSH market perspectives and connections to nontraditional partners/agencies.
d. Opportunities for research presentations and assistance with publications, especially on WaSH equity and justice.
e. Partnership in organizing campus seminars, guest lectures, and student awareness campaigns aligned with UN water-related observances (e.g., World Water Day, Earth Day).

GWA also values Institutional Members' active role in the network's strategic and awareness-building work. Institutional Members are encouraged to:

a. Attend the Annual Membership Meeting.
b. Participate in GWA conferences (including three complimentary passes).
c. Apply GWA participation toward continuing education (CE) credits, as applicable to their profession.
d. Partner with GWA to shape global WaSH discourse through forums such as the World Water Council, World Water Week, and UN agencies.

On occasion, Institutional Members may develop a working relationship with GWA that may involve new fiduciary and legal arrangements, e.g., when collaborating on a community-based participatory research and implementation project. In such cases, GWA will work toward a specific Memorandum of Understanding (MOU) with the Institutional Member.

Institutional Membership is by invitation only. The fee is set at $1,000.00 for those members who are registered in an OECD country. Outside the OECD, the membership fee for institutions will be handled on a case-by-case basis.

Payments by bank transfer, credit card, or check are accepted through our online payment form: https://www.zeffy.com/en-US/donation-form/gwa-general-payment-form

Contact info@globalwateralliance.net for more information.

GWA seeks to enroll institutions across the United Nations spectrum. Please note that GWA's working language is English, and institutional membership is with GWA as a charitable organization registered in the Commonwealth of Pennsylvania (USA). Membership dues and benefits are administered in accordance with U.S. and Pennsylvania law.
